

Curriculum Vitae
Fuqiang YANG

Dr. Yang Fuqiang is the Senior Adviser on Climate, Energy and Environment for the NRDC China Program. NRDC (Natural Resources Defense Council) is an US-based non-profit international environmental advocacy group. Prior to joining NRDC, Dr. Yang was the Director of Global Climate Solutions for WWF International. He was vice president of Energy Foundation and chief representative of Energy Foundation Beijing Office from 2000 to 2008. In the '90s, he had worked with Lawrence Berkeley National Laboratory on China's energy and environmental issues. He also worked with Energy Research Institute, State Planning Commission, on renewable and rural energy policy, energy modeling and forecasting, project evaluation and long-term planning. He received his Ph.D. in Industrial Engineering at West Virginia University in the United States in 1991 and his B.S. in Physics at Jilin University in China in 1977.
